To whom it may concern:

Cherry County, Nebraska completed a Justice Center project in 2011. The project included new construction of a 30-bed jail facility and a courtroom with court support offices. Law enforcement offices were included in the new building and partial renovation of the existing building. The basement contains mechanical equipment, phone and data equipment, a new Emergency Operations Center and storage areas for various departments.

Prochaska & Associates were hired to provide architectural services for the project. They assisted the county from pre-design through completion of the construction. Their professional assistance with selecting a construction manager and guidance throughout the bidding process proved invaluable.

Assisting with construction documents and managing sub-contractor meetings were also services that were provided. The majority of their staff was engaged during some portion of the project. They helped manage the budget, kept the project in compliance with relevant codes and cooperated with the County's efforts to retain some historical aspects of the project.

Cherry County appreciated the professionalism and integrity displayed by Prochaska & Associates. The County Board of Commissioners would readily recommend their firm for similar projects.

Respectfully,

A handwritten signature in black ink, appearing to read 'Mark I. Adamson'. The signature is fluid and cursive, with a large initial 'M' and a distinct 'A'.

Mark I. Adamson
Chairman, Cherry County Commissioners
