To whom it may concern:

As a former Principal of Millard West High School, I had the opportunity to work closely with Prochaska & Associates on the additions to our school facilities anticipated by our 2005 District Bond Issue. Prochaska & Associates was selected to be the Architectural, Engineering and Interior Design firm for our school.

I worked with all of the primary professional disciplines of this firm throughout the planning and delivery of our project. I found virtually all of the personnel to be knowledgeable and very capable of incorporating all of our intentions into our school's 2006-2007 construction project.

I was pleased with the professionalism exhibited by Prochaska & Associates. Our concerns were always addressed in a very timely fashion, and the Prochaska staff were highly skilled in handling any issues that came up during the planning, development, construction and closeout of our project. The fact that all disciplines such as architects, engineers, designers and technical professionals are included within the firm, served the project very well, in that all staff were equally accessible for immediate assistance when needed.

In conclusion, I would provide my highest recommendation for the services of Prochaska & Associates, and I would encourage consideration by anyone for employment of their school design and technical expertise.

Please feel confident to contact me personally for additional information should you choose.

A handwritten signature in blue ink that reads "Rick Kolowski".

Rick Kolowski
Former Principal of Millard West High School
Current State Senator, NE – District #31
