PROCHASKA & ASSOCIATES
11317 Chicago Circle
Omaha, NE 68154

Dear Mr. Prochaska:

Now that construction is complete, and Plattsmouth's firefighters and rescue squad volunteers are taking full benefit of our remodeled and significantly expanded Plattsmouth Volunteer Fire and Rescue Department facility, it is time to say thank you for a job well done.

Plattsmouth's Main Street is rich with historic architecture. In designing our new fire and rescue facility, Prochaska & Associates paid great attention to that history and architecture. The finished product blends exceptionally well. While doing so, Prochaska & Associates designed a highly functional, modern, and useful facility.

It might be easy for architectural firms to come in, offer designs, get the building erected and open and then move on to the next project. Plattsmouth got far more with Prochaska & Associates on our fire and rescue building. From beginning to end, Prochaska & Associates got very involved in the project and the community. Prochaska representatives created brochures to help with the bond campaign, submitted renderings to City Council, attended different public events, including King Korn Festival, spaghetti feeds and other activities.

Plattsmouth is proud of the new Volunteer Fire and Rescue Department facility. Our hope is that Prochaska & Associates is equally proud.

Sincerely Yours,

Ervin L. Portis
City Administrator
