April 28, 2009

Mr. Donald Prochaska  
Prochaska and Associates  
113127 Chicago Circle  
Omaha NE 68154-2633

To whom it may concern:

Valentine Community Schools has worked with Prochaska and Associates over the past several years on various engineering and design projects. Assistance with engineering projects have included replacement of cooling towers, brick and structure repair, and most recently replacement of heating, cooling, and ventilation for the high school competition gym. In our world, these have all been large projects where Prochaska and Associates expertise was crucial to making good decisions about appropriate options. During these projects, the service received has been professional, timely, and done in such a way to ensure longevity in the completed project.

The district has also worked with Prochaska and Associates in development of a long range facility plan and design. Their expertise was an integral part of a recent bond election. Although the bond election did not prove to be successful, the planning and design work that was done with that process will continue to be a cornerstone as the district moves forward with improving school facilities.

Prochaska and Associates has been and continues to be a partner with the district providing expertise and support which is both trusted and essential to a successful outcome.

Sincerely,

A handwritten signature in blue ink that reads "Jamie S. Isom". The signature is written in a cursive, flowing style.

Jamie S. Isom  
Superintendent
