To whom it may concern:

I am pleased to take this opportunity and write this letter of recommendation for Prochaska & Associates, the Architects and Engineers who designed and delivered the new Police & Fire Headquarters Building for City of Marshalltown, Iowa.

My first contact with the firm was when I flew city officials and organizers to McCook, Nebraska, where they had designed a combined police/fire safety building. We were pleased with the professionalism exhibited by Prochaska & Associates in that project, so it was no surprise that we would experience the same in ours.

I understand our city staff concerns were always addressed in a very timely fashion, and the Prochaska people were highly skilled in handling any issues that came up during the planning, development, construction and close-out of our project. All disciplines such as architects, engineers, designers and technical professionals, served this project very well.

As the mayor proud of a beautiful and functional new safety building, I would provide my highest recommendation for the services of Prochaska & Associates. Please feel comfortable to contact me personally for any additional information.

Very truly yours,

Joel T.S. Greer  
Mayor of City of Marshalltown, Iowa
